The Serengeti inspired Slingshot Collection is a simplified take on the late modern sling chair typology, designed in South Africa for contemporary outdoor leisure. Rectangular seats & back rests in world leading performance fabrics (or thick leather for indoors) are finished with Iroko (African hardwood) end caps. Envision safari sunsets with the Slingshot Dining Chairs, Lounge Chairs, Kitchen Stools and Bar Stools.

Sunbrella Fabrics

Haldane Martin upholstered in world-leading quality outdoor fabric from Sunbrella. Collections include: Solids, Natte, Mezzo, Blend & Pashmina.

Scatter Cushions for some of the designs are offered in Sunbrella's premium luxe collections: Ikebana, Marquetry, Komo, Majestic & Savane.

UV and Fade Resistant

Traditional dyeing processes only leave color on the surface of fiber, so they easily fade. Sunbrella fibers are saturated to the core with highly UV-stable pigments, making Sunbrella fabrics resistant to fading and the degrading effects of sunlight.

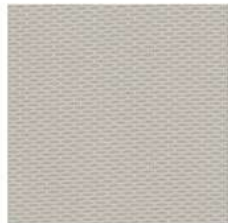

Mold and Mildew Resistant

All Sunbrella fabrics are engineered to resist mold and mildew. Should exposure to dirt and debris cause mold and mildew to occur, all Sunbrella fabrics can be easily and safely cleaned with bleach.

Bleach Cleanable

Because color goes to the core of Sunbrella fibers, Sunbrella fabrics can be cleaned with solvents such as bleach without losing color.
